

CYBEX LEGACY 750T TREADMILL

CYBEXcellence

SCIENCE

that captures the

ART of

RUNNING.

You probably think all treadmills are pretty much the same — and most of them are. Except for the CYBEX Legacy 750T. CYBEX has its foundations in exercise science, sports medicine and rehabilitation. We engineer all of our equipment to maximize the exercise training effect while minimizing the potential for overstress. And our treadmill is no exception. With the Legacy 750T, members get the most effective and efficient workout, and gym owners get the most reliable fitness equipment on the market. Meet the new standard for treadmills — the CYBEX Legacy 750T.

CYBEX 6hp brushless AC motor

Leading competitor's motor

1

TOUGH GUY

BUILT BIGGER TO RUN COOLER, SMOOTHER, AND LONGER

The Legacy 750T's 6hp brushless AC motor is more powerful than it needs to be, so it runs cooler and smoother to deliver a steady feel for users and unmatched durability for gym owners. Backed by an exceptional warranty, the Legacy 750T is tough enough to meet the most extreme demands – and will leave your Out-of-Order signs gathering dust.

2

REDUCED FAT

A LARGER RUNNING SURFACE AND SMALLER FOOTPRINT THAN OUR COMPETITORS

The Legacy 750T wasn't just engineered with walkers and runners in mind – CYBEX kept gym owners in mind, too. With a spacious running area 62" x 22" and a compact overall area 80" x 34", the Legacy has a smaller footprint than its competition, but delivers more running space. With the Legacy 750T, your members have more room to run, and you have more room for your members.

SELF-SERVE

3

THE LOWEST MAINTENANCE TREADMILL DECK IN THE INDUSTRY

Unlike the plastic-coated particleboard decks of many of our competitors, the deck of the Legacy 750T is built to last. Our eleven-layer marine-grade plywood deck uses hardwood maple surfaces on both the top and bottom outer layers. Those layers are infused with a proprietary wax formulation that continuously lubricates the belt during use. Because of its double-sided design, the deck can be rotated and flipped to provide up to four wear surfaces, maximizing overall deck life.

COOL BELT

4

OUR POLY-COTTON BELT IS BUILT TO TAKE THE HEAT

Heat is the enemy of virtually every mechanical device, and a treadmill deck and belt are no exception. With every step a user takes, heat builds up between the deck and the belt. The more heat that gets generated, the greater the wear and tear will be on the deck and belt. Most competitors use a polyester-backed belt that retains heat and accelerates wear. The Legacy 750T uses a blend of cotton and polyester that allows the heat to escape, so our belt stays cooler and lasts longer than our competitors'.

JUST RIGHT

5

THE CYBEX INTELLIGENT SUSPENSION SYSTEM ABSORBS IMPACT PRECISELY WHERE IT OCCURS

Gym owners want to keep all their members happy. Luckily, all members want the same thing when it comes to a treadmill workout – a comfortable, stable running surface. Our competitors soften their treadmills' entire deck, causing a "trampoline" effect that can actually lead to injury. The deck of the Legacy 750T is soft at landing, hard in the middle, and rigid at toe-off, to exactly match the body mechanics of a runner. The Legacy also incorporates an advanced-technology elastomer to dampen the shock effect. We call it the IS3 Intelligent Suspension System, and only CYBEX has it.

Deck flexes to absorb impact of heel strike and reduce stress on joints

Deck is firm at mid-stride and rigid at toe-off to promote proper body mechanics

SIMPLY GORGEOUS

6

EASY-TO-USE CONSOLE HIGHLIGHTS WORKOUT OPTIONS WITH AN INTRIGUING BLUE GLOW

Though the Legacy 750T console has all the latest technology, the most advanced feature we've added is ease of use. The display's intriguing blue glow engages the user and lets them choose one of nine programs that include heart rate control with user selectable targets and fitness tests. Or, with Quick Start they can get going in an instant. The Legacy's optional Personal Entertainment Monitors turn themselves off when not in use to help save energy and prolong monitor life. And, to help keep your members cool, a built-in fan is standard. CYBEX Safety Sentry™ tracks treadmill use and automatically ends the session if the user leaves the treadmill while it is still running – and rounds out this one-of-a-kind fitness experience.

engineered TO LEAD THE PACK.

The CYBEX Legacy 750T is the strongest, toughest, and smartest treadmill on the market, delivering the best exercise experience for users and the most reliable performance for gym owners – workout after workout, year after year. Still think all treadmills are the same? **We didn't think so.**

specifications

Speed Range:	0.5 mph to 15 mph (0.8 kph to 25 kph)
Elevation Range:	-3% to 15%
Running Surface:	22" x 62" (56 cm x 157 cm)
Maximum User Weight:	400 Lbs. (181 kg)
Dimensions:	80" (204 cm) L x 34" (86 cm) W x 62.5" (159 cm) H
Motor:	3hp Continuous, 6hp Peak AC brushless motor
Programming:	Quick Start and Manual as well as Weight Loss Rolling Hills; Hills, Pike's Peak, and Hill Interval 1:1, Hill Interval 1:2, Hill Interval 1:3, Cardio each with ten levels. The Heart Rate Control program has user selectable heart rate target. Nine custom programs.
Fitness testing includes:	Gerkin, Army, Air Force, Navy, Marine and a One-mile Test
Cool-Down Feature:	Provides a two-minute cool down when pressed using reduced speed and elevation.
Information Displayed:	Graphic display of profile via 10 x 15 dot matrix; LED display distance, calories, calories/hr, METs, pace, heart rate, time, incline and speed level
Heart Rate Monitoring:	Contact and Polar® (chest strap not included). Display includes multi-color indication of heart rate range.
Connectivity:	CSAFE (Fitlinx certification pending)
Facility Features:	Facility preference setup parameters and diagnostics including units, scanning, default time, maximum time, review time, idle (pause) time, maximum speed and maximum elevation. Real-time clock with four time zones for facility management with real time display option. Selectable dormant display style.
Deck:	Wax impregnated marine plywood that continually replenishes itself during use with hardwood maple surfaces. Double sided for double life.
Optional Personal Entertainment Monitor:	Integrated monitor attached to display. Centrally located channel and volume controls. Headphone jack is readily replaceable. Power is connected internally eliminating the need for a second power source.
Color:	Two tone Platinum Sparkle and Black Chrome with graphite enclosures, optional colors available.
Power:	Grounded and dedicated circuit 100 VAC ±5, 50/60 Hz, 20 amp dedicated line 115 VAC ±5, 60 Hz, 20 amp dedicated line, NEMA 5-20 plug, 45 degree offset, right angle plug 220 VAC, 60 Hz, 15 amp dedicated line, NEMA 6-15 plug, 45 degree offset, right angle plug 230 VAC ±5, 50 Hz, 15 amp dedicated line, CEE 7/7 plug 230 VAC ±5, 50 Hz, 13 amp dedicated line, UK standard plug
Power Cord:	Approximately 11' (335 cm)
